

PLANNING

MED-94-3.80 CORRIDOR IMPROVEMENTS  
Wadsworth, Ohio

**Owner:**  
City of Wadsworth

**Total Project Cost:**  
\$14.0 million est.

**Part I Completion Date:**  
2014 est.

**Project Description:**  
Urban arterial safety and congestion problems were identified through a safety study and safety funding applications prepared on behalf of the City. The overall project studies included 1.7 miles of highly developed commercial urban arterial, as well as, an independent I-76/SR-94 interchange study.

The project includes commercial access management, roadway / bridge widening, interstate ramp reconstruction, storm sewer improvements, stormwater detention facilities, utility relocations and traffic signal and interconnection improvements at eight (8) intersections.
